

MEETING THE PROJECT MANAGEMENT CHALLENGE

2004

Biography

Jerald G. Kerby

For the past 13 years, Jerald has worked for the National Aeronautics and Space Administration (NASA) at the Marshall Space Flight Center (MSFC) in Huntsville, Alabama. During that time he has worked as an Accountant, Auditor and EVM Specialist. Currently, he works in the Project Analysis Group where he is responsible for implementing a data analysis tool at MSFC. As part of this function, he is leading the efforts to create a management system that will house all of the Cost Performance Reports (CPR) data for MSFC projects. Also, he is the Lead Integrator for the Orbital Space Plane (OSP) Program, which involves supporting the program in all of its EVM needs. In addition, he is working with several other MSFC projects to setup their data analysis processes. He is responsible for providing both classroom and hands-on EVM and data analysis training to all the projects at MSFC. He also has developed a standard report for MSFC projects to help standardize the EVM reporting at MSFC.

Jerald has a Bachelor of Science Degree from Athens State University with a major in Accounting. He is currently doing course work for a Masters of Science Degree at the Florida Institute of Technology. In addition, he is a Certified Public Accountant in the State of Alabama.
